CHICAGO PRODUCE MARKET.

CHICAGO, April 4 .- | Special Telegram to the BEE.]-The visible supply of wheat, as whil as the visible supply of cora, was a disappointment to-day to the bulls. One showed too small and the latter too large an increase. It was the talk last week that wheat would decrease to-day at least 1,000,000 bushels. Only 826,000 bushels disappeared to-day, and It made the market a little heavy. Up to last week, since January 1, the decrease in the visible of 1887 has been more rapid than it was in 1886, but for two weeks there has been a falling off in the amount that went out of sight. In 1886 there disappeared from the "visible" between April 1 and July, when wheat began to increase again, 220,000,000 bushels. It was hoped that between April 1 and July this year even more would go out of sight; also that there would be a small increase, so that the smallness of the "decrease" for the past two weeks is disappointing. Fullerton, who is just back from Nebraska, says that the soil is excessively dry in that state and that spring wheat, which got into the ground in spendid shape, may suffer. In Kansas he says winter wheat is suffering seriously. The whole wheat pit is still trading in the May option of that grain and not one purchase of June is made where two are in the earlier month. But the shorts in wheat have for a long time known that if they could get the trade switched over into June it would be of advantage to them. So far as speculation went it was lifeless. The range was \$2@\$2\formal{2}\text{c} between the opening and closing and showed how very uninteresting the pit was. Corn dropped to 39\formal{4}\text{c} for May and ranged between that and 39\formal{4}\text{c}. The receipts (678 cars) were unexpectedly heavy and promised to be heavier still for to-morrow. The demand for cash corn is still altogether from the "carriers," a bear future. Kansashe says winter wheat is suffering gether from the "carriers." a bear future. CHICAGO LIVE STOCK.

Chicago, April 4 .- [Special Telegram to the BEE. |-CATTLE.-The receipts were 5,400. The light run caused buyers to get out early and bid rather lively for such as they wanted, hence business was active, with an up turn of a strong 10c on the ordinary run of fat cattle and the same on fair to medium shipping and dressed beef stock, the market closing steady at the advance. There was a brisk demand for natives, but choice stock and all grades stood as strong as at this time last week. The stocker and feeder trade was dull. A large number were carried over last Saturday. To-day there were but few country buyers and no business of consequence during the forenoon. As to prices there is no particular change as compared with last week. Anything that is carefully selected, that has style, blood and breed, costs nearly as much as at any time. Then, again, com-mon cullings and undesirable lame things are 25.6330c lower than a month ago. Hogs—At the opening business was brisk and about the same as Saturday, but after a few orders were out of the way there was a break, with a down turn of at least 5c, the general market closing weak and large numbers left in the hands of speculators. Common light, and fair to good light, light-light and Yorkers were almost unsaleable, and the few sold show extremely low figures, common going as low as \$4.50; light light, \$4.75@5.15, and Yorkers \$5.25@5.50, with a few fancy at are 25 (\$30c lower than a month ago. Shir and Yorkers \$5.25@5.50, with a few fancy at \$5.60. Best heavy sold at \$5.75@5.80 and packing sorts at \$5.60@5.65, with common at \$5.25@5.50.

FINANCIAL.

NEW YORK, April 4.—[Special Telegram to the BEE.] - STOCKS.—The market opened strong, active and factionally higher this morning, with a lively trade in the first half hour, sales amounting to 118,000 shares in that time. The most of the leading active stocks advanced a little from the opening and then, under realizing sales, values eased off slightly. It was rumored that the Grand Trunk had received an order from London to obtain a differential rate in any event, and there was some selling on this. Western Union continues to be a bull card. The friends of Louisville & Nashville talk 75 for it this week, and Norfolk preferred is expected to raise in sympathy. The earnings of the Toledo & Ohio Central increased \$9,100 the fourth week in March and \$23,954 for the month. The Peoria, Decatur & Evansville earnings for the same week increased \$9,800. John Shaw is quoted as saying that the Hocking Valley road would earn under the new inter-state law \$500,000 to \$600,000 more this year than last. Gould's friends say that while he is a little indisposed, he is by no means sick, and that a day or two of rest will restore him to good health. It is stated that his faith in Western Union, Missouri Pacific and Texas Pacific continues undiminished. and that he has sold none of these stocks. The features of the day were Reading and Jersey Central, both of which advanced 2 points. It was said that a basis of settlement between the two roads had been practically agreed upon, the details being withheld for the present. The advance in stock was stimulated by the agreement of all companies to work in barmony in maintaining coal prices. Stout & Co. were large buyers of Reading and said it would go to 60 this year. The Jersey Central advance was argely due to manipulation. St. Paul earnings for the fourth week in March increased \$100,000, and for the month \$78,387. Evans ville & Terre Haute increased \$5,600 for the week and \$12,550 for the month. Northern Pacific earnings increased \$90,081 for the month of March. The total sales were 553,595 shares, of which 164,560 shares were GOVERNMENTS-Government bonds were

OMAHA LIVE STOCK.

Monday, April 4. The receipts of cattle during the week just

ast were 4,700 which was a falling off from the week previous of 800 nead. The first two days of the week the market was strong but on Wednesday there was a decline of 10c in sympathy with eastern markets. On Tuesday the market closed strong but it weakened again on Friday and the market closed with again on Friday and the market closed with prices about steady. The receipts of hogs during the week were 21,500 as against 15,000 for the week previous. The week opened with hogs selling from \$5.30@5.00. On Tuesday the market closed 5@10c lower. Wednesday morning's market regained the loss of the night before but closed at a decline of 10c. Thursday's market was weak but Friday's market closed strong at about steady prices. Friday's market closed strong while another 10c decline was experienced on Saturday.

There were 800 sheep received during the week, but the market was not particularly active. There are no regular sheep buyers and hence when there is any demand the market is frequently very good, while at times it is impossible to get even a bid.

Cattle. The receipts of cattle were very light and of those in thirteen loads did not arrive until too late for the market. There was a very good demand for good fat cattle and the market was fairly active at an advance of 5@10c.

Hogs. The receipts of hogs were light as usual on Monday. There was no demand for light hogs and all such were neglected, six loads being left over. Heavy hogs were a shade better in the morning, but closed weak and dell.

There was nothing doing on the market.

OMAHA WHOLESALE MARKETS The Week.

Monday, April 4. There have been a few changes in the proluce markets since a week ago. Firmer prices will be noticed in the butter market which has been occasioned by the scarcity of that article. Eggs, however, continue at the old prices, although a lower market is anticipated. A scarcity will be noticed in the poultry market and corresponding high prices. There has been a little improvement in the potatoe market, but the market is still weak. New vegetables are coming in in greater variety and all that is necessary to create an active demand is a few days more of warm weather.

The following prices are for round lots of produce, as sold on the marketto-any. BUTTER—The receipts of good butter are very light and the market is cleared. There is a good demand for choice, sweet table butter, but there is very little coming that can be graded as such, and buyers have been compelled to take the poorer grades. On account of the scarcity of the choice grades poor butter has sold more readily than usual and at better prices. Dealers, however, must not expect to receive fancy prices for

common stock. Choice country, 18@20c; fair to good, 14@16c; common, 8@10c. EGGS—At the present time the market may EGGS—At the present time the market may be said to be devoid of any new features. The receipts continue heavy. There is a good city demand while the shippers are taking all the surplus stock. The prevailing price is 10c. A good many dealers are anticipating lower prices when the inter-state commerce law goes into effect. The new law will raise the rates between this point and the Pacific coast from \$1.05 to \$3.00. This will tend to lower the market here unless there should chance to be an advance in the California markets, as shippers will require wider margins on which to ship.

good prices have been obtained. Choice fat chickens have been seiling readily at 11c, and fair to good at 10c. POTATOES—The receipts have not been quite as heavy during the past few days. Local farmers are not bringing in as many and the outlook is a little more encouraging. The retail dealers are mostly stocked up for the time being, but stocks are not heavy. In some cases dealers are trying to get a little better prices for home grown than those quoted below. The trade is confined almost entirely to the sale of small lots from the store and it would be a difficult matter to close out car lots to a single buyer. An occasional small lot brings a little more than is justified as a quotation. New potatoes, from the south, have put in an appearance this week, but are not moving very freely as yet. week, but are not moving very freely as yet.
